I grew up in the music industry working with Bill Graham's Winterland Productions and Sony Signatures. I toured with Johnny Cash on "The Man in Black" U.S.Tour (1995-1996) and fell in love with his haircut. To me, his traditional pompadour represents the first true "rock and roll haircut." Thirty years ago I refocused my career from touring to men's grooming. Now, I am a female Master Men's Groomer who specializes in men's vintage haircuts. I grew quite attached to both Johnny and June, and feel this also is a way of keeping them close to my heart. Each of my cuts is done with great pride as a tribute to not only Johnny, but the periods in history these cuts represent.

Experience

Owner and Master Men's Groomer

Seattle, Wa.
Feb 2000 - Present

B.E. Worldwide Inc. operating under Westside Barber Shop

I opened my first shop "Borseno's Barber Shop" in February 2000. After remaining in business for a decade, I decided to close "Borseno's" and focus on my second shop "Westside Barber Shop" which I opened in July 2003. Having the one location has allowed me to laser focus on my business and has enabled me to frequently travel back and forth between Seattle and Los Angeles.

Education

Cosmetologist

Bellevue, Wa.

Bellevue Beauty school
