Wind River Group / Rob Johns Photography

PHOTOGRAPHER / DIRECTOR

Los Angeles & Detroit

robshot@me.com
313-300-6574 office

For over 30 years, Rob Johns has been an award winning photographer, gravitating to boutique clients and projects, Fortune 500 Annuals to International ad campaigns. Rob's work has appeared in magazines all over the world. He has had the opportunity of living over-sea's and been fortunate to have worked in just about every part of the globe. He has won all kind of awards for Advertising and Design, but that's not his passion... It's taking a camera and capturing that image that tells and sells the story, in single or 30 frames. He has now grown into HD projects and has an outstanding team to service any and all requests.

Rob brings a load of skills and insight to your project. Rob has traveled internationally for over 30 years and is able to produce and direct any project throughout the world . Rob's crews work as a small team, gorilla style, taking high budget jobs down to the core, through scripted story boards, to on the fly documentaries. Still to motion! Rob's eye for design and color have always set his work apart... Graphic images that are simple and tell the story. Our team will do all the logistics, after 35 years we know some shortcuts. Five minutes with the CEO or elaborate set-up's, we pride ourselves on our ability to problem solve...anywhere! We have had some clients for over 10 years and that says something...we bring it back, on time ,within budget and always give the client more than they expected. We engage our subjects and our portraiture shows it. There is life and stories on the faces we shoot!

Check out our services Icon and projects. We don't scream at people and find humor in stressful situations,please join with us as we bring back the goods, from single frame to 30. We always look forward to talking with new clients.

A big thanks for taking a look...enjoy

rob johns
