CONCERT POSTER DESIGN

Our passion for bands and their music has never faltered in our 20+ years as self taught artists in the music industry. Our skills and passion are put to the test as we often have to "recreate" almost all the artwork / logos for a project to best capture the visual energy that drew us to these bands. We call it "Merch" style. The list of bands we have worked with is long, the list we would like to is even longer. Who's next?
